GIN INSURANCE

The season for insuring gins is about here, and I am better equipped than ever to handle this class of business. My companies' rates are as reasonable as the hazard will admit and are as low as any reliable company.

I am also in position to insure country property—i. e. dwellings and country stores.

ACTION TO BE TAKEN

District Attorney Jerome Will Not
Institute Legal Proceedings Un-
til the Investigating Com-
mittee Finishes.

New York, Oct. 6.—District Attorney Jerome announced in a statement to Justice Davy in the criminal branch of the supreme court, that he intended to present to the extraordinary grand jury the revelations affecting the conduct of life insurance business which has been made before the legislative investigation committee. Mr. Jerome said the inquiry by this committee has shown greater moral obliquity and moral obtuseness on the part of the persons important in the business world, than did the shocking revelations in regard to the Equitable Life.

He said there was public sentiment and sense of outrage at what had been done, and that it would undoubtedly meet with general commendation if he were to select certain individual transactions and place them before the grand jury at once. However, he regarded it as his duty to wait until the investigation committee had completed its work and then to ask for an extraordinary grand jury and lay before it the matters disclosed by his own study of the situation, as well as that of others. This, he said, he intended to do.

At the session of the investigation committee it was brought out that, in addition to the \$1,162,329 which Robert H. McCurdy received in commissions on foreign business of the Mutual Life, he received \$541,852 in commissions on domestic business.

It was also brought out that Louis A. Thebaud, who married Miss Gertrude McCurdy, received in commissions from 1893 to 1904, the sum of \$920,113 from the Mutual Life insurance company.

It was also brought out that Robert H. McCurdy, who is President McCurdy's son, expected his income this year would be \$110,000.

Another incident was the publication of a letter from Charles E. Hughes, counsel of the legislative committee, to Samuel Untermyer, counsel for James H. Hyde, the former controlling stockholder of the Equitable Life Assurance society, in which Mr. Hughes said the committee would make no discrimination in favor of Mr. Hyde in his examination before the committee.

The chamber of commerce adopted a resolution declaring that additional legislation is necessary for the proper regulation of life insurance companies.

OTHER FEVERS.

It Is Believed All the Cases Are Not
Yellow Jack.

New Orleans, Oct. 6.—With the number of fatalities daily from yellow fever reduced to almost significant figures, the public has reached the conclusion that the number of new cases is unjustifiably large, and that there is being included in the official list, cases classed as yellow fever that are simply fever. The marine hospital service officials admit this as probably the case, but disclaim responsibility for the errors which are included in official figures which they furnish. The blame is placed at the doors of certain physicians, who find their excuse for reporting such cases in pretended fear of arrest if they should make a mistake and fail to report an actual case.

Report up to 6 o'clock Thursday evening is: New cases, 28; deaths, 3.

Four cases were reported at Vicksburg. Other Mississippi cases are: Natchez, 6; Gulfport, 6; Sierra City, 1; Roxie, 4 new cases, 2 deaths; Rosetta, 3 new cases, 2 deaths.

The following reports from the country were received:

Kenner, one new case.

Terre Bonne parish (two days), twelve cases.

Amelia and Bayou L'Ourse (three days), seven new cases, one death.

La Place and Vicinity (seven days), twenty-six new cases, six deaths.

Barrataria, three new cases.

Tallulah, one new case.

Lake Providence, six new cases.

Considerable infection has been found in the surrounding country.

A dispatch from Rosetta says that there "yet remains nearly fifty persons who have escaped," indicating that all others in the town have been stricken with the disease. An urgent appeal was sent to Dr. Hunter for assistance, which was given.

Colonel U. H. Benjamin, one of the best known planters in North Louisiana, died of yellow fever on his plantation in East Carroll parish, south of Lake Providence. His daughter is now ill with the disease.

Pensacola reports eighteen new cases and three deaths.

Several cases are reported in state of Oaxaca, Mexico. There are two at Vera Cruz and five cases and two deaths at Tezonapa.

In a fight at a dance near Mertens, Tex., Pink Littlejohn was so badly cut he may die. Wiley Scism and Ben Perlman have fractured skulls.

Diseases Caused by Immoral Habits
Head the List of Admissions,
and Most Deaths Are the
Result of Pneumonia.

Washington, Oct. 6.—Surgeon General R. M. O'Reilly of the army has submitted an exhaustive report on health conditions of the army to Secretary Taft. The report says the enlisted strength of the army as shown upon the monthly sick reports was 58,740 and on the returns of the military secretary 60,139, and calculations are made up on the latter figures. There were 79,586 "admissions to the sick report" during the year, the 406 deaths from all causes and 1377 discharges from disability. Figures, he says, show a steady and progressive improvement of the health of the army.

The report says that by far the most important diseases affecting the efficiency of the army during the year have been those resulting from immoral habits, which caused 16 per cent of the admissions. This class of disease advanced from third to first place in the number of admissions to the sick report. There are constantly on the sick report for this class of diseases 715 men, equal to the loss for the entire year of services of eleven full companies of infantry.

"The control of these diseases," says General O'Reilly, "lies largely in the hands of civil authorities, and one of the most important steps to that end would appear to be classing them with other infectious diseases, and the requirement that they shall be reported as such and controlled by health departments. In the military service a similar course should be followed."

"As to the cause of death, pneumonia has advanced to first place and tuberculosis second."

"There were 206 admissions for gunshot wounds, with forty-four deaths, and 280 admissions for wounds other than gunshot, with fifteen deaths. Twenty-one men were killed in action and forty-two wounded. Of the killed two were by gunshot. Of the wounded twenty-eight were by gunshot."

There were forty-five soldiers drowned, 11 per cent of the total deaths from all causes, indicating how important it is that all soldiers should have systematic instruction in swimming. Twenty-seven soldiers committed suicide. Ten deaths were due to homicide.

"Notwithstanding that the large part of the army was serving in the tropics there was no admission for snake bite."

"The strength of the officers from 3421 from medical department reports and 3815 from military secretary. There were 2276 admissions and twenty-seven deaths."

"Comparisons with foreign armies show that the highest rate of admissions was in the American army and the lowest in the Russian. The highest death rate was in the American army and the lowest in the Prussian. The highest non-effective rate was in the American army and the lowest in the Prussian."

"The very high proportion for alcoholism in the American army as compared with that of the British is partly due to the fact that in the latter service only admissions to hospitals are counted."

"It is notable that while the British have less than half the American admission rate for dysentery, their death rate is practically the same, and that while their ratio admission for malaria is about the same their death rate is nearly three times as great. The American admission rate for malaria is nearly eighty times that of the French, while the death rate is only five times as great. These facts point out the difference in the method of computing admissions. The figures for measles and mumps compare very unfavorably with the other armies except the French."

"The strength of the army in the Philippines was 11,996 and there were 2246 admissions to the sick report and 105 deaths. The strength of the Filipino troops was 4610 and there were 5242 admissions and 103 deaths."

Postmaster Personally Guaranteed Them Their Former Salaries.

Goldfield, Nev., Oct. 6.—Owing to the reduction of salaries of clerks at the postoffice here from \$120 per month to \$80 per month by direction from Washington ten men walked out of the office and were only persuaded to return by Postmaster Collins personally guaranteeing them their former salaries. Ten new civil service men from San Francisco will take the places of the old force at the lower salaries.

DENIED BY TABOR.

Quarantine Not Being Maintained in Interest of Dallas.

Austin, Oct. 6.—State Health Officer Tabor denied the charge made by the Beaumont paper that the quarantine against Shreveport is being maintained at the suggestion of Dallas business men in shipment of freight so that Dallas and other north Texas points may get the business which naturally belongs to Shreveport. Dr. Tabor said that there is no embargo against Shreveport or even New Orleans in the shipment of freight provided it is properly fumigated according to rules promulgated by Texas, effective July 25.

The railroad commission indicated that it would exempt from the operation of the dry goods emergency order any railroad in the state which can show conclusively that it has not been a party to the Chicago agreement in which roads agreed to protect combination of locals through Galveston on shipments rebilled at Galveston.

A good live newspaper can do more to lift a town out of the slough of despondency and start it on a career of commercial prosperity than any other medium. A progressive paper should have the patronage of every man, woman and child in the town in which it is published, and by patronage is not meant the money payment alone, for the subscription, but other things that are really of more value. For instance, it is very little trouble to tell your merchant you called to buy an article because you saw it advertised in the paper, but it reinforces confidence in the columns of your paper and enables it to add to its bank account that much more which will ultimately be spent in giving you a better paper at no extra cost to you.—Austin News-Tribune.

The Eagle yesterday morning contained a special from Beaumont giving the thrilling experience of Miss Lucy Brogdon, formerly of this city, with a negro burglar in her room at the home of her brother. As stated in the item Miss Brogdon received knife wounds, which fortunately were not serious. The matter gave the people of this city much concern, but friends are not of a serious character. Miss Brogdon is a daughter of Mr. and Mrs. W. J. Brogdon and well known and highly esteemed in this city. She is employed as a stenographer in Beaumont.

Mr. S. Duncan, an expert accountant from Dallas, who was employed by the board of directors of the A. and M. College to audit and check up Col. J. G. Harrison's books and accounts, has finished his work and returned home. We are informed that he found everything correct and in first-class shape. We knew beforehand that such would be the result of his labors, but it gives the Eagle pleasure to have another opportunity to congratulate the genial gentleman who holds down the business end of the College.

The Farmers' Improvement Society which has held its annual meeting the past three days with Shady Grove colored Baptist church, completed its labors last night and adjourned. The attendance was the largest in the history of the society, nearly three hundred farmers being present. They reported nearly all mortgages against members lifted and large purchases of land made. A tract of fifty acres of land has been purchased between Woolf City and Ladonia, Texas, and the necessary steps taken to establish an agricultural school. The matter will be taken up at once, several thousand dollars being available for this purpose. About \$1600 has been paid to the heirs of deceased members during this meeting. R. L. Smith of Paris, Texas, president of the Society, has also been elected president of the new agricultural school.

SCHLOSS BROS. & CO.
Finest Clothes Makers
BALTIMORE, NEW YORK

TEN yards of cloth and a mile of thread isn't the whole story of a good suit--not by several thousand stitches.

It takes tailoring brains, in plenty and mighty clever craftsmanship to make clothes in the right way--the SCHLOSS way.

Further than this, the looks and life of the suit depend more on the *little* details than you could imagine. For instance, simply the placing of the buttons and the shape of the lapel have everything to do with the final appearance of a coat, while such a trifle as the proper moulding of a curve makes all the difference between a beautiful garment and a mealsack.

If you could take an X-Ray glance at the interior of a Schloss coat you'd find the same careful attention to details as you see outside. Linings, stays and paddings--the framework of the structure--are made to wear, not merely to sell.

The result of all this care is a finished garment that looks and *is* extraordinarily good. It fits that way too, and wears that way as a matter of course. An occasional pressing makes it keep that "new look" indefinitely.

We handle the Schloss line because we know there's none better and never found any as good. We have all the new styles and shapes, of course, in the most desirable colors and patterns.

Some of our Suits and Top Coats cost \$12; others \$15 and \$20.

Come and look at them.

STRONG Again
is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.
Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer—weakens, and become diseased.
Kodol Dyspepsia Cure
enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.
Digests What You Eat
Dollar bottle holds 25¢ times as much as the trial, or 50 cent size.

BOLD ATTEMPT.
Negro Tries to Criminally Assault a Lady in Waller County.
Hempstead, Oct. 6.—Intense excitement prevails here over the bold attempt Thursday of a negro to criminally assault a lady in this county.
The lady upon whom the attempted assault was made is the wife of a farmer of the Reid's Prairie community, some ten miles east of Hempstead. While driving from her home to that of a relative some time during the forenoon her horse was seized and stopped by a negro, who leaped from the roadside and made efforts to drag her from the buggy. She lashed the animal and succeeded in freeing herself from the negro's grasp, outdistancing him in a short pursuit. Immediately on returning home the alarm was given, and a posse composed of neighbors and residents of that section began the search with the receipt of the news. The posse, numbering perhaps few less than 200 men, left to join in the pursuit. Every kind of conveyance was pressed into service.

Taken to Tyler.
Tyler, Tex., Oct. 6.—Frank Taylor, a negro, about seventy years old, charged with criminal assault near Gordon Valley on a girl fifteen years old, is in jail here.

DEED TO ALAMO.
Property Is Transferred to Daughters of the Republic.
Austin, Oct. 6.—Governor Lanham has executed an instrument whereby he delivers to the care and custody of the Daughters of the Republic the Alamo property in the city of San Antonio, which was purchased by authority and under appropriation of the last legislature. Mrs. Anson Jones, president of the Daughters of the Republic, has been mailed a copy of the instrument executed by the governor, a copy of which has been placed on record in the department of state.

To Erect Salt Works.
Lampasas, Tex., Oct. 6.—All the material is on the grounds at the salt well belonging to Judge W. B. Abney and the erection of large salt works will be taken up immediately. The water contains salt in large quantities and a relatively large amount of lithium chloride, which may be available for the manufacture of lithia for medicinal purposes.

Three Cent Advance.
Beaumont, Oct. 6.—The Texas company announces an advance of 3 cents per barrel on crude oil in all Texas fields. The increase is attributed to decreased production in Humble and Jennings fields.

Jumped to His Death.
Galveston, Oct. 6.—Scared by the appearance of a police officer, who appeared upon the scene of a crap game, Charles Diggs, a negro boy, jumped into the grade raising canal and drowned.

SENTENCE SUSPENDED.
Guy P. Cobb Pleads Guilty to Introducing Liquor in Territory.
South McAlester, I. T., Oct. 6.—Guy P. Cobb of Ardmore, charged with introducing, whose case was brought to Atoka on change of venue from Poteau, pleaded guilty and was fined \$310 and sentenced to thirty days in jail. The execution of the sentence was suspended during good behavior.
Cobb was formerly tribal tax collector and was in the employ of the Federal government for several years.

Banker Indicted.
Muskogee, Oct. 6.—Lake Moore, a banker and politician of Weleetka, one of the most prominent men in the Creek nation, has been indicted by the Federal grand jury on the charge of larceny. It is alleged that Moore secured checks belonging to two Indians. He asserts that the Indians owed him money.

Favors Separate Statehood.
Tahlequah, Oct. 6.—The National council of the Cherokee nation has passed resolutions indorsing the action of the separate statehood convention held at Muskogee Sept. 8. The constitution of the proposed state of Sequoyah is also indorsed.

CARMICHAEL DEAD.
He Was the Man Who Nominated Horace Greeley For President.
Binghamton, N. Y., Oct. 6.—Louis Carmichael, the man that history gives credit for the nomination of Horace Greeley for the presidency in 1872, was found dead in a barn at Sydney, N. Y. He was eighty-three years old.

University Closed.
Moscow, Oct. 6.—The rector of Moscow university has closed that institution because of the recent mass meeting held in its precincts in which a number of participants were outside agitators totally unconnected with the university.

Stabbed Major General.
Richmond, Ind., Oct. 6.—Colonel Arthur Stabbert of St. Paul, Minn., was appointed major general of the Uniform rank of Knights of Pythias, by Charles Shively, supreme chancellor of the world. He succeeds J. R. Carnahan, deceased.

Order Rescinded.
St. Louis, Oct. 6.—A special to the Post-Dispatch from Warrensburg, Mo., says Secretary J. A. B. Adcock of the state board of health issued an order that the quarantine instituted in Missouri because of yellow fever in the south is rescinded effective Oct. 7.

Conservative Leader Dead.
Santiago, Chile, Oct. 6.—Senator Carlos Walker Martinez, an eminent politician and leader of the Conservative party, is dead.

FOURTEEN KILLED.
Terrible Catastrophe Occurs in a Slate Quarry.
Troy, N. Y., Oct. 7.—Fourteen men were killed by a cave-in at the Vermont Slate company's quarries near Granville. Among the dead is J. B. Williams, president of the company. The slain were Hungarian laborers. Six men were buried in the cave-in. Cadwallader and Warren Queen, who were rescued. The latter is expected to die.
Mr. Williams was a prominent citizen of Granville. He was formerly a commercial traveler of a New York Japanese sugar store.

COMPLETE RESUMPTION.
New Orleans Business Men Encouraged by Cool Weather.
New Orleans, Oct. 6.—The chill in the air and cooler temperature in portions of Louisiana have brightened the spirits of the people generally and raised hope that with improving conditions in every direction complete resumption of business is not many days distant. More communities are intimating their desire to remove restrictions as soon as reasonable safety will permit. St. James parish is to lift her quarantine on the 20th. Baton Rouge probably at the same time and Alexandria on the 15th. Shreveport, which has suffered most severely in a commercial way by the cancellation of practically all trains, is taking steps to resume communication with some surrounding parishes, which, it is believed, will be the first step to wiping out quarantine altogether.
Natchitoches has made concessions already, and it is likely will soon throw herself open to the whole state. Owing to the quarantines many terms of courts had to be deferred, but arrangements are now being made for their resumption.
The drift of laborers into the sugar districts is growing heavier now that the season for cane cutting is near at hand. A large crop is to be harvested. Sensational reports sent away from here a week ago to the effect the crop had been destroyed by a storm is utterly without foundation. Practically no damage was done.
The local situation continues to grow better, with steady reduction of cases under treatment and further decrease promised in a week in the death list. That the government believes the situation here is under complete control is indicated by the fact that officers are being suggested for transfer to other points.
In connection with the history of the fight with yellow fever, that is to appear in the service records Dr. White has asked his ward headquarters to furnish complete reports in their possession by Oct. 13.
Steady progress is being made in wiping out the fever in St. John parish, between Baton Rouge and New Orleans.
The quarantine against Kentwood, Tangipahoe parish, has been raised. Only one case appeared there twenty days ago. Not a new case developed at St. Bernard in the past twenty-four hours. Baton Rouge is free from fever.
Fourteen new cases and three deaths is the yellow fever report up to noon Friday.

SHIP TOTAL WRECK.
Fast Upon the Rocks Is the Elegant Steamer St. Paul.
Eureka, Cal., Oct. 6.—Fast upon the rocks one and one-half miles south of Humboldt the San Francisco and Portland company's steamer St. Paul, Captain Randall, lies a total wreck. Her ninety-three passengers and crew of sixty-five are safe. Some on board the steamer were en route to San Francisco but the far greater number reside at Eureka, having arrived on the tug Ranger, the Eureka and steamer Vanguard who rescued them from the wrecked steamer. The disaster, it is said, was due to a thick fog. The captain blames no one.
Captain Randall was about to get up and take a look around when the ship struck a rock. The shock awakened the passengers and watch below. Considering the circumstances, there was unusually good order preserved among all on board, says the captain, and there was no panic or unnecessary confusion.
Captain Randall and the masters of the Ranger and Vanguard consider the St. Paul a total wreck, both ship and cargo. She has aboard 1100 tons of miscellaneous freight. The women passengers suffered much from exposure and a number of them fainted when they realized their peril.

Failed to Steal Jewels.
New York, Oct. 6.—Louis Brown, a negro, attempted to steal a tray containing \$30,000 worth of jewelry in the store of Cross & Bequelin. A clerk named Oscar Windorf shouted at the negro, who dropped the tray and fled. The clerk pursued. The negro stabbed him, but not seriously. Brown was captured.

BRIEFLY MENTIONED.
